

DR. CHOK AIK YONG

MBBS, MRCS (Edin), MMed (Surg), FRCS (Edin)

Dr Chok Aik Yong is an experienced Consultant Colorectal and General Surgeon. He is the Medical Director at Aelius Surgical Centre, at Mount Elizabeth Hospital (Orchard).

Languages & Dialects:

English, Mandarin, Bahasa Melayu, Hokkien, Cantonese

Experience

Dr Chok has extensive experience in robotic colorectal surgery, performed more than 500 major operations for colorectal cancers including complex cases invading other organs and more than 10,000 endoscopy procedures. He has performed one of highest volumes of gastroscopy and colonoscopy procedures, as well as major colorectal resections at SGH. Prior to private practice, he was in the Department of General Surgery at Singapore General Hospital (SGH).

He was a member of the multi-disciplinary IBD team, operating on many Crohn's disease and ulcerative colitis cases. He was also a member of the SGH pelvic exenteration team, performing numerous multi-organ surgeries for advanced colorectal cancers. He was also a part of the colorectal genetics and hereditary disorders service at SGH.

Education & Training

Before private practice, Dr Chok has been in public service for over 15 years. He was a consultant in the Department of General Surgery at Singapore General Hospital.

Dr Chok graduated with degrees in Bachelor of Medicine and Surgery from the National University of Singapore. He was conferred the Master of Medicine (Surgery) in Edinburgh (UK) and a member of the Royal College of Surgeons, UK. He subsequently completed his specialist training in colorectal surgery and became a Fellow of the Royal College of Surgeons in Edinburgh in 2016.

Dr Chok was awarded the Health Manpower Development Plan (HMDP) award in 2019 to advance his colorectal training at Royal Marsden Hospital, one of the top 5 cancer centres in the world. While in London, Dr Chok trained with pioneers in the surgical management of advanced colorectal cancer and inflammatory bowel disease (IBD) and gained extensive experience while appraising the latest clinical and research evidence.
